

Happy at Home...Happy at Work...

Current research has demonstrated what many business leaders have known for a long time: employees in healthy, stable marriages exhibit increased productivity, experience fewer chronic health problems, are more dependable, miss fewer work days, are more self-motivated, live longer, amass greater economic assets and in general have higher levels of self-esteem and self-confidence.

This workshop is designed for both singles and couples, and partners are encouraged to attend.

Here's what your organization will receive:

- A structured framework to communicate more effectively at home and at work
- Defining your 6 basic needs
- How to communicate through solution-based conflict
- Strategies to achieve work/life balance without sacrificing productivity
- How to negotiate and get what you want without giving away your power

Keynote Speaking and Workshops Pricing

Corporate Workshops
